Max. 8 attendees

Benefits

Through Valmet's professional training programs, either standard courses or tailored to your specific needs, you will have optimized competences available in your organization. Together we make a development plan for your personnel based on your business needs, and deliver the agreed training flexibly and effectively.

- Optimized competence development enables
- better utilization of features in the automation and control solutions
 - proper installation, start-up, operation and maintenance of the solutions and equipment
 - improved knowledge of product-related safety and environmental issues
 - better employee motivation

The results are typically visible as higher productivity, plant availability, improvements in end product quality, time and material savings.

Course Program

Day 1, 9:00 – 16:00

Architecture of programs and databases

Valmet DNA Historian database basics

- Exercises

Day 2, 8:30 – 16:00

Valmet DNA Historian database features

Tag configuration

- Valmet DNA Engineering Repository
- Valmet DNA Explorer, download to info
- Templates (Horizontal Application)
- Tag Configurator Excel Add-in
- Exercises

Valmet DNA Historian

- Database maintenance
- Exercises

Day 3, 8:30 – 15:00

Valmet DNA Historian; SQLplus basics

- Query writer tool
- Diagnostic queries
- Exercises

Valmet DNA Historian; data maintenance

- Exercise

Backup definitions

Cim-IO Interface

- Process controller interface definitions and troubleshooting

Alarm Historian Database

- Collecting events to MS SQL, principle
